

BECOME A CONSULTANT

Are you well connected with businesses, non-profits, governmental units or individuals that are in the \$100 million plus net assets category? Are you comfortable approaching prospective clients about a revenue generating program they may be unaware of or unfamiliar with? Would you like to be a problem solver by providing an opportunity which generates immense high revenue, with no risk and a “historic performance” of success? Are you interested in earning an incredible income while sharing a “game changing” opportunity for your prospective clients? If you answered “YES” to these questions, you may be perfectly suited to be a CGP Independent Consultant!

By introducing your prospective clients to the CGP opportunity, you will be viewed as a genuine revenue producer and problem solver. CPG Consultants with access and talent to make these valuable introductions will earn legitimate eight-figure plus commissions. The Consultant’s commissions are paid on the same weekly schedule in which their clients receive their revenue distributions. Consultants are also paid on all subsequent renewals.

The CGP prospective consultant must participate in a phone interview with the CPG Coordinator. If selected to be a CPG Independent Consultant, you will be guided through a program training and approved to present the CGP presentation to your prospective clients.

All CGP Independent Consultants are required to sign an agreement to protect valuable trade secrets and the confidentiality of the clients. To learn more please email: info@cgpselect.com
